Reporting Content or Accounts on the Site

At FansyMe, we're dedicated to maintaining a safe and positive environment for all users. The easiest way to report a profile, post, or message is using our built-in Report feature.

Reporting a profile

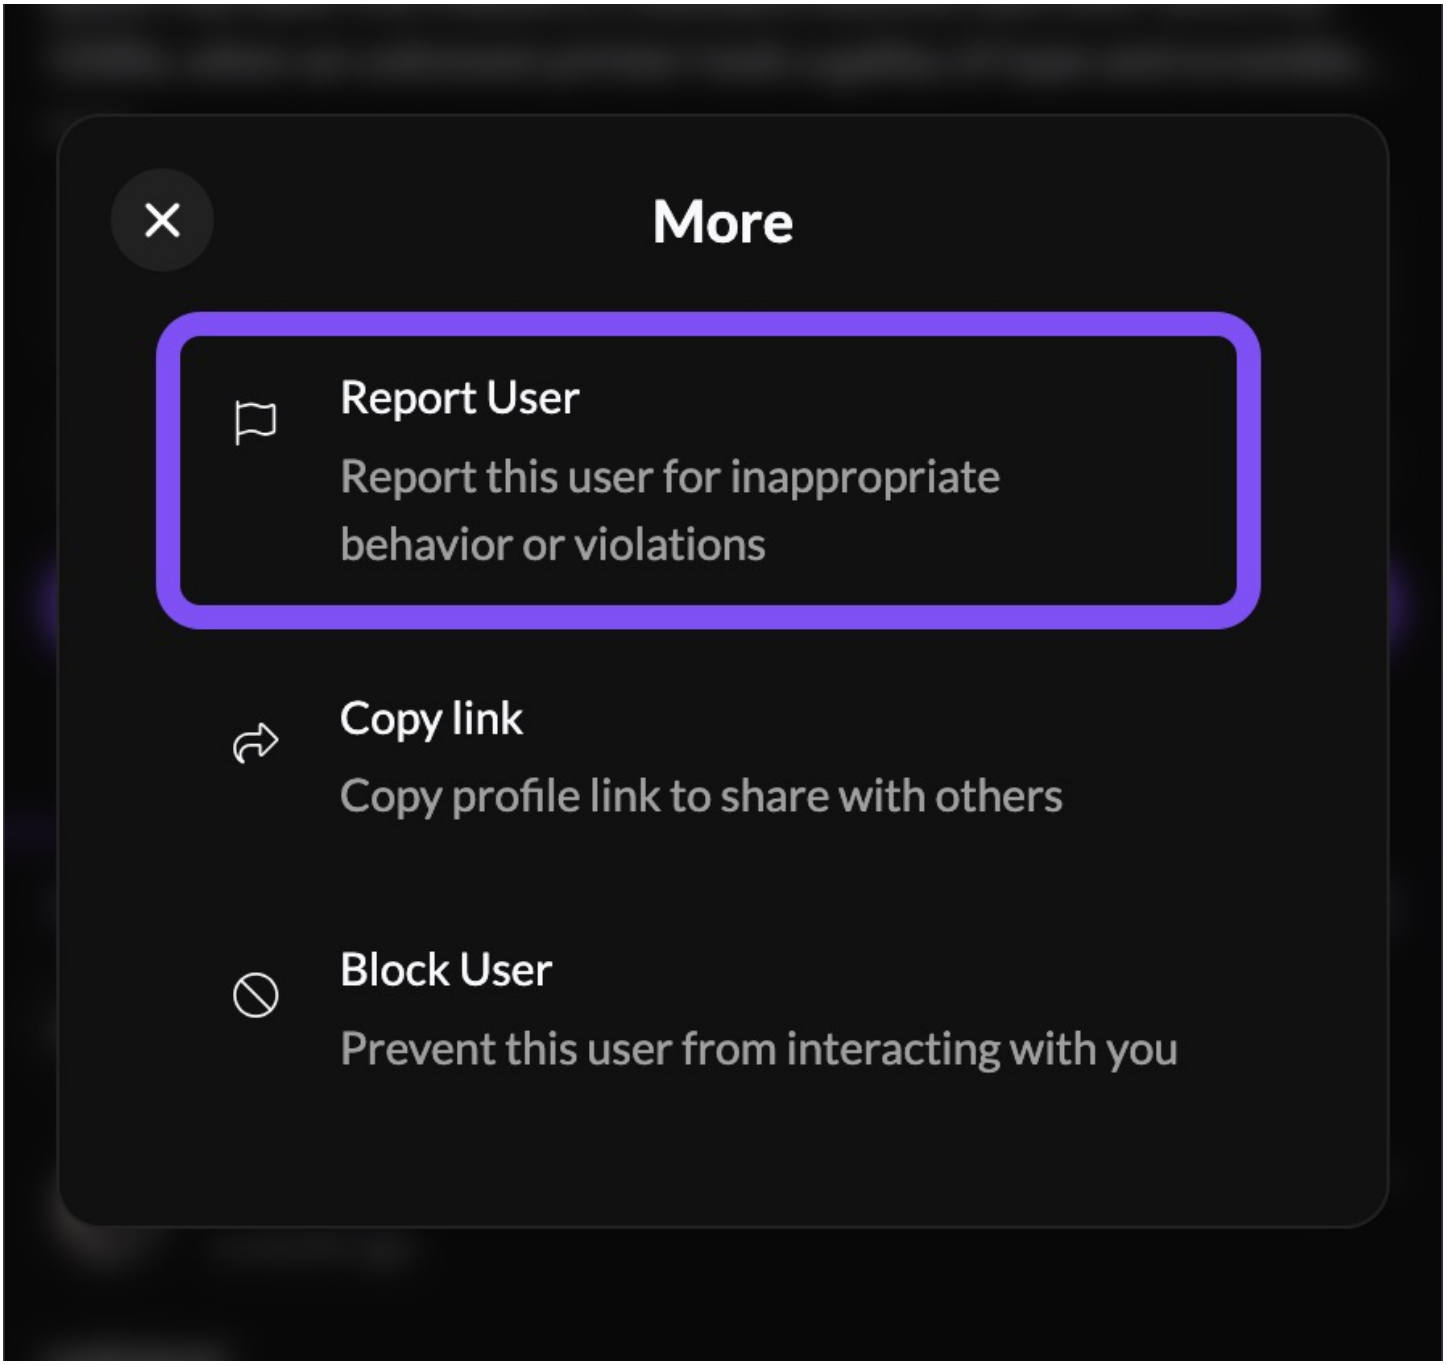

Use this option for issues related to a user's account or behaviour in general, such as impersonation or repeated policy violations. If you want to report specific content depicting you without your consent, see the note on NCII reports below instead.

1. Go to the profile you want to report and tap the three-dot menu ("More") in the top right corner.

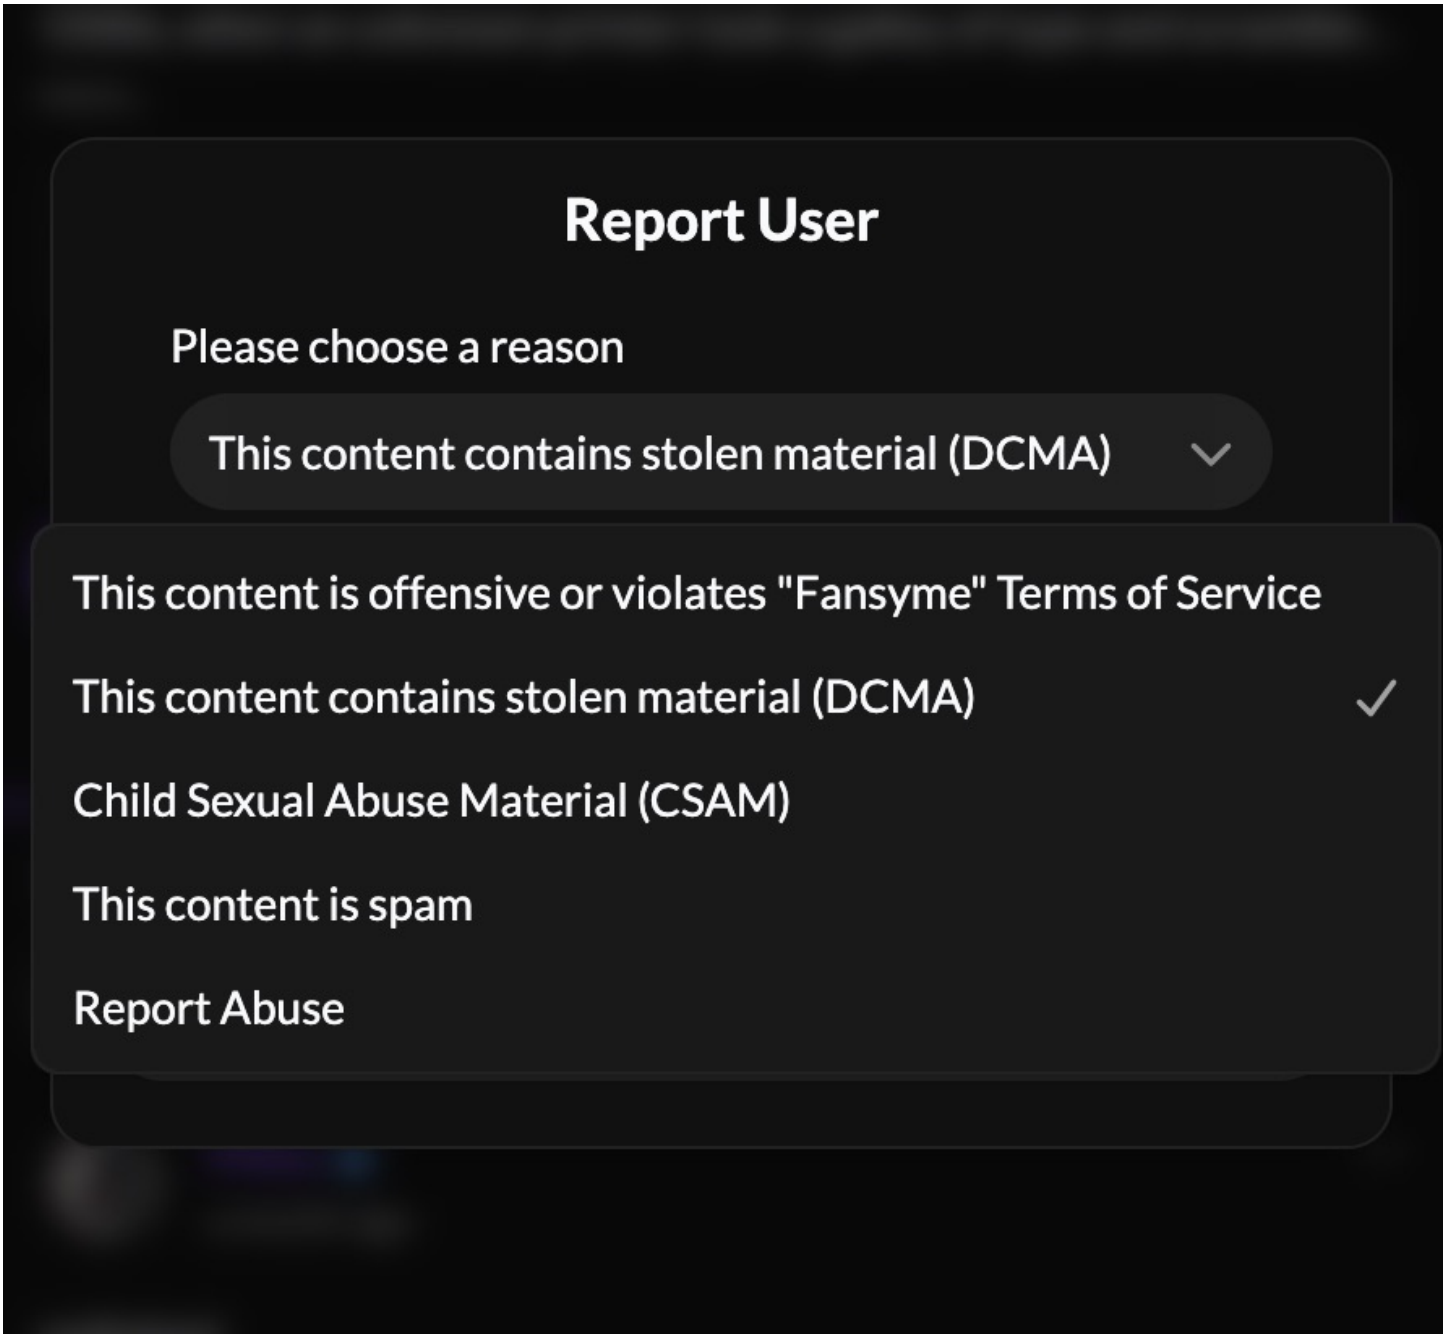

Report a User

2. Select **Report User** from the menu.

Select "Report User"

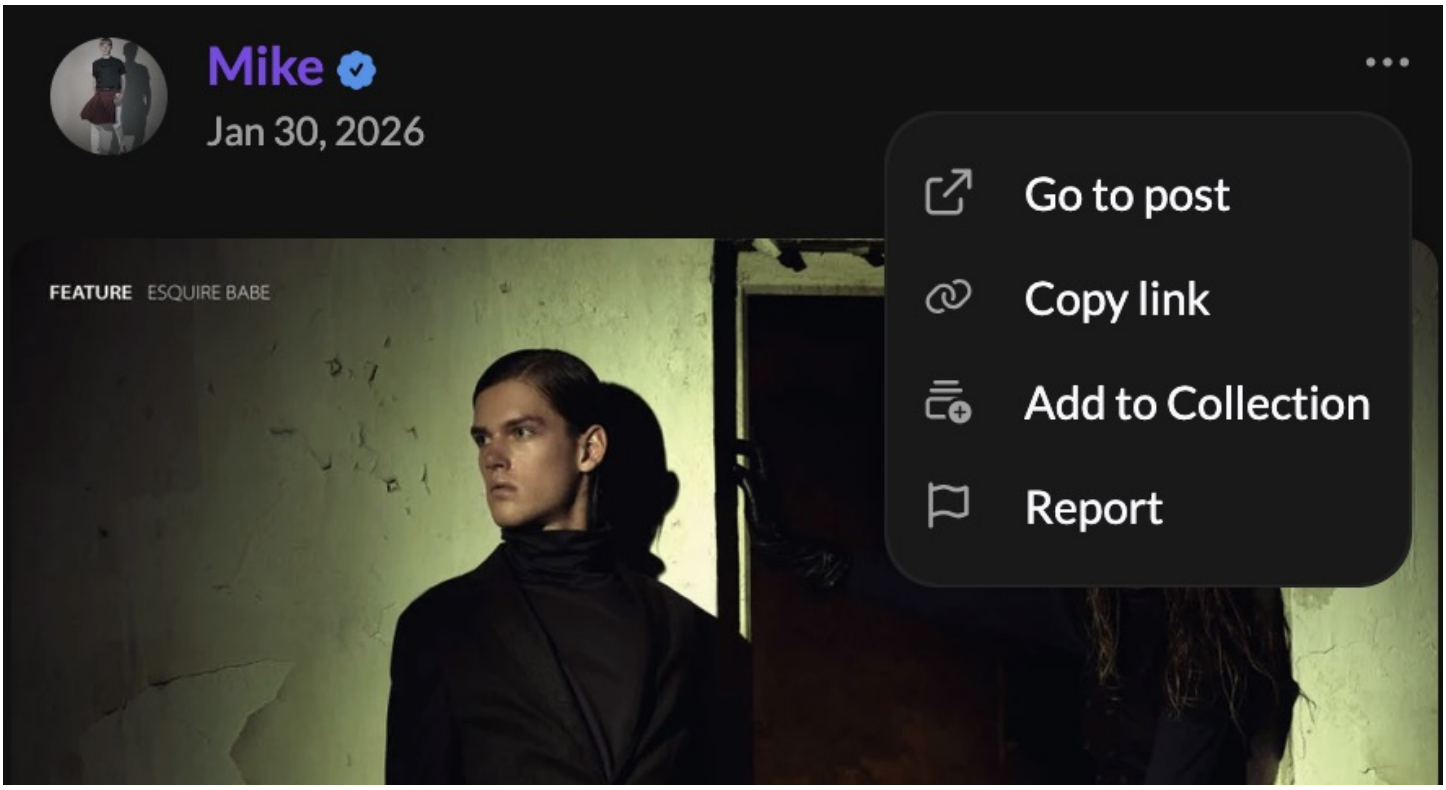

3. Choose a reason from the dropdown.
4. Add any details that will help our team investigate.
5. Submit your report.

Select a reason to report this user.

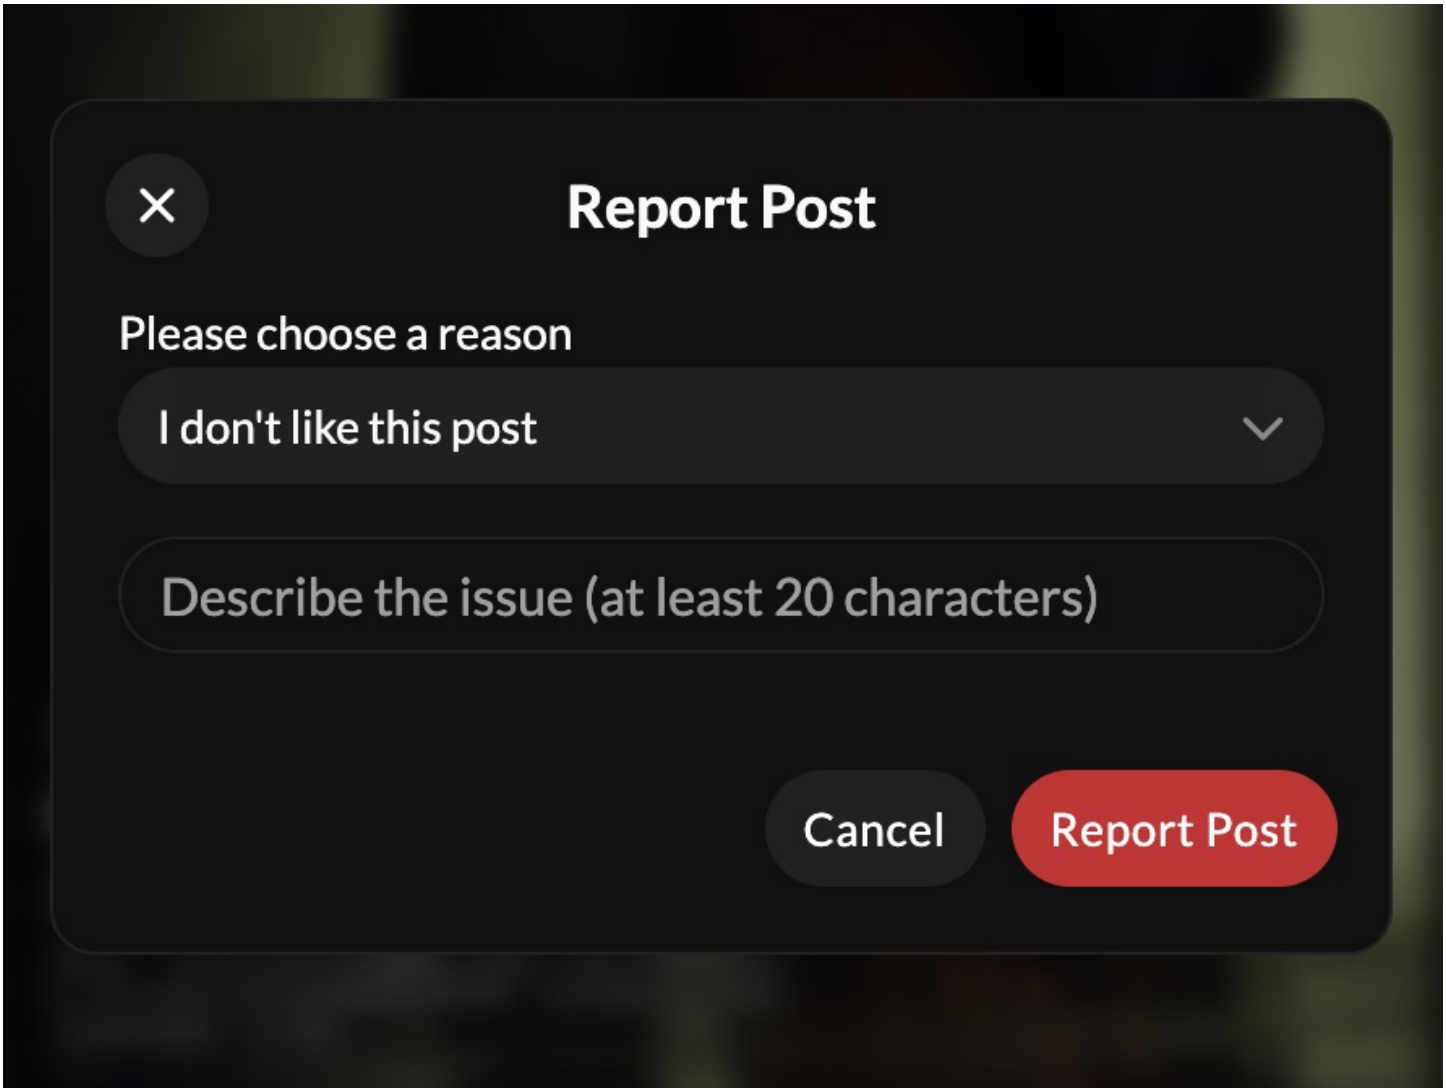

Reporting a post

1. On the post you want to report, tap the three-dot menu in the top right corner.

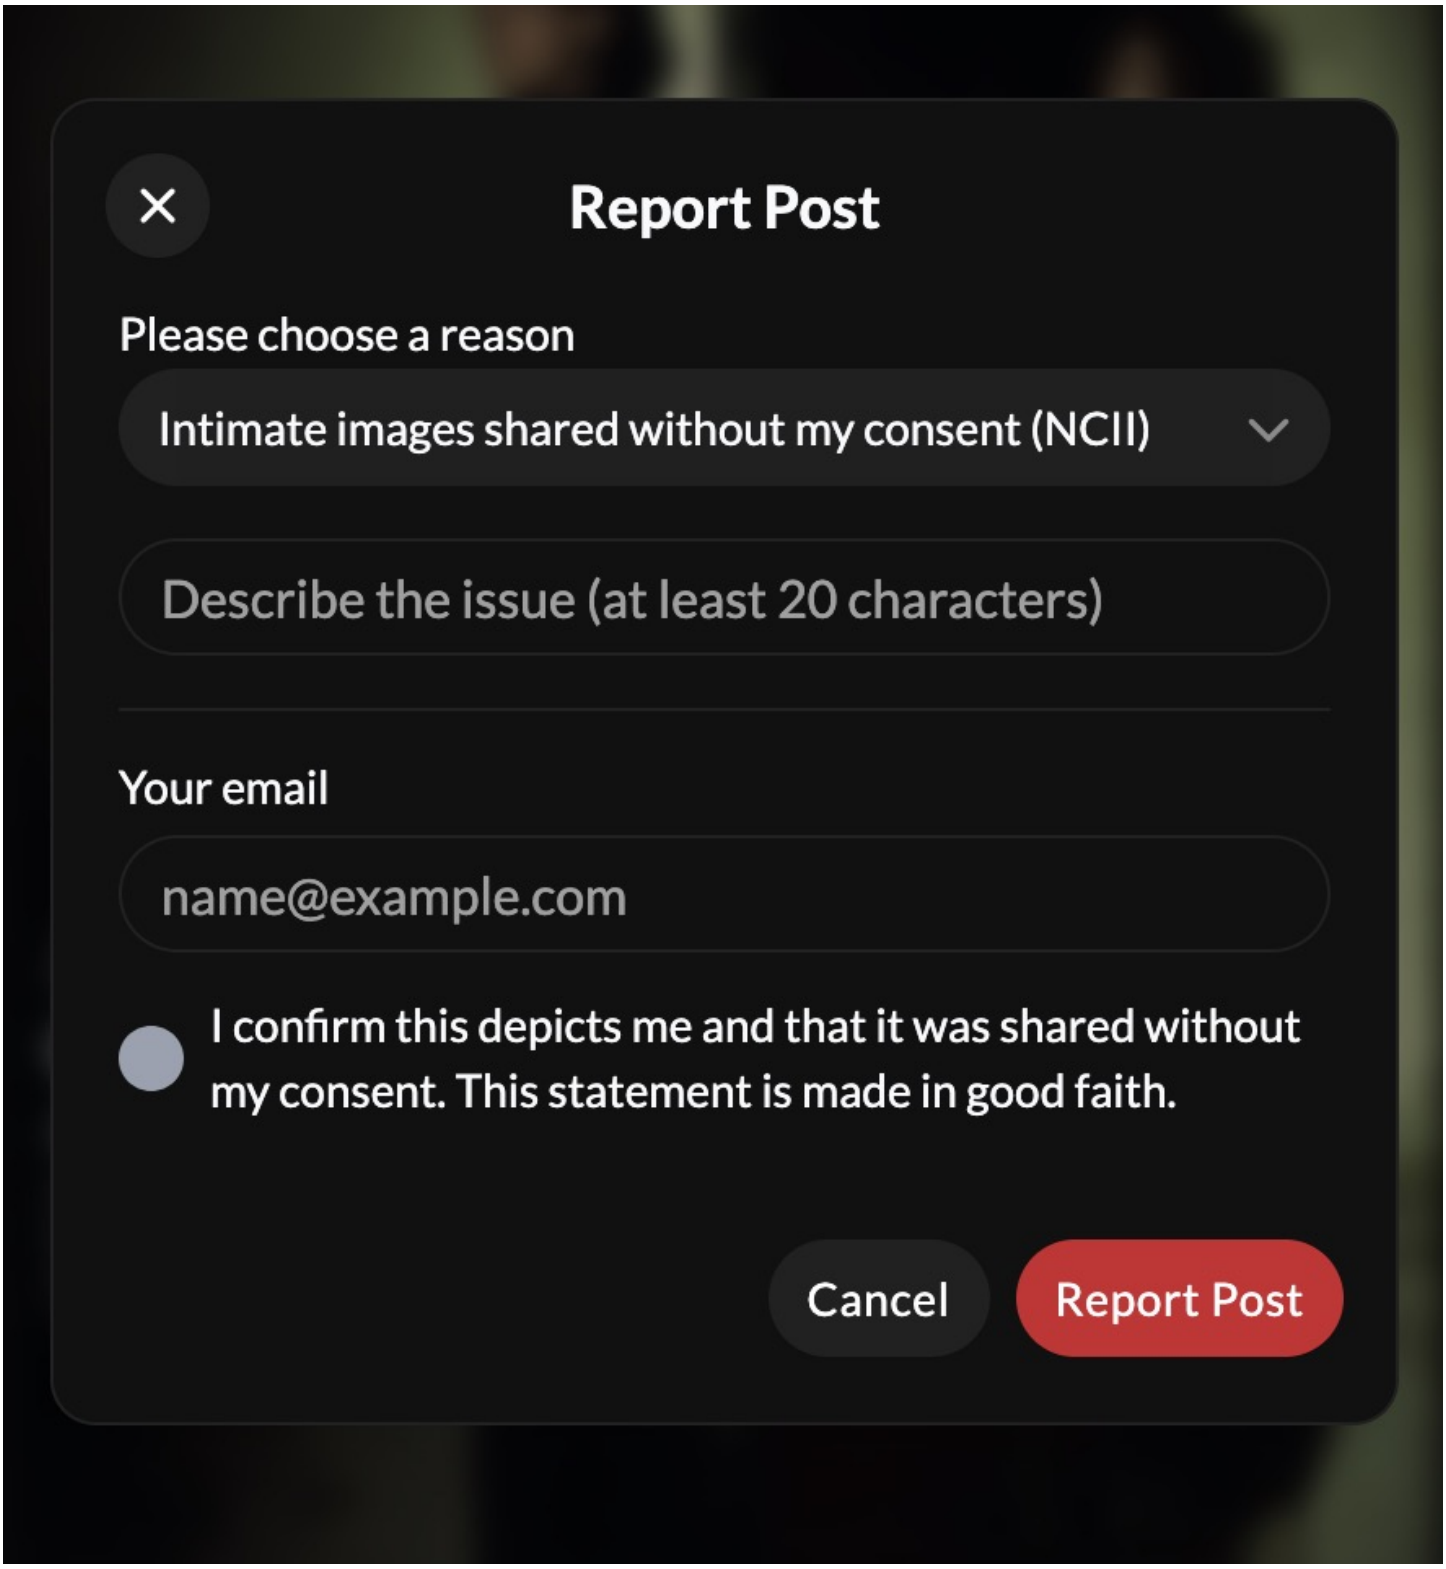

Find the 3 dots on a post and click on it.

2. Select **Report**.
3. Choose a reason from the dropdown and describe the issue (at least 20 characters).

Select the reason to report the Post.

If you select **"Intimate images shared without my consent (NCII)"** as your reason, additional fields will appear asking for your email address and a good-faith confirmation. This option is available when reporting a specific post or message, not when reporting a profile as a whole. See our dedicated NCII reporting guide for the full process.

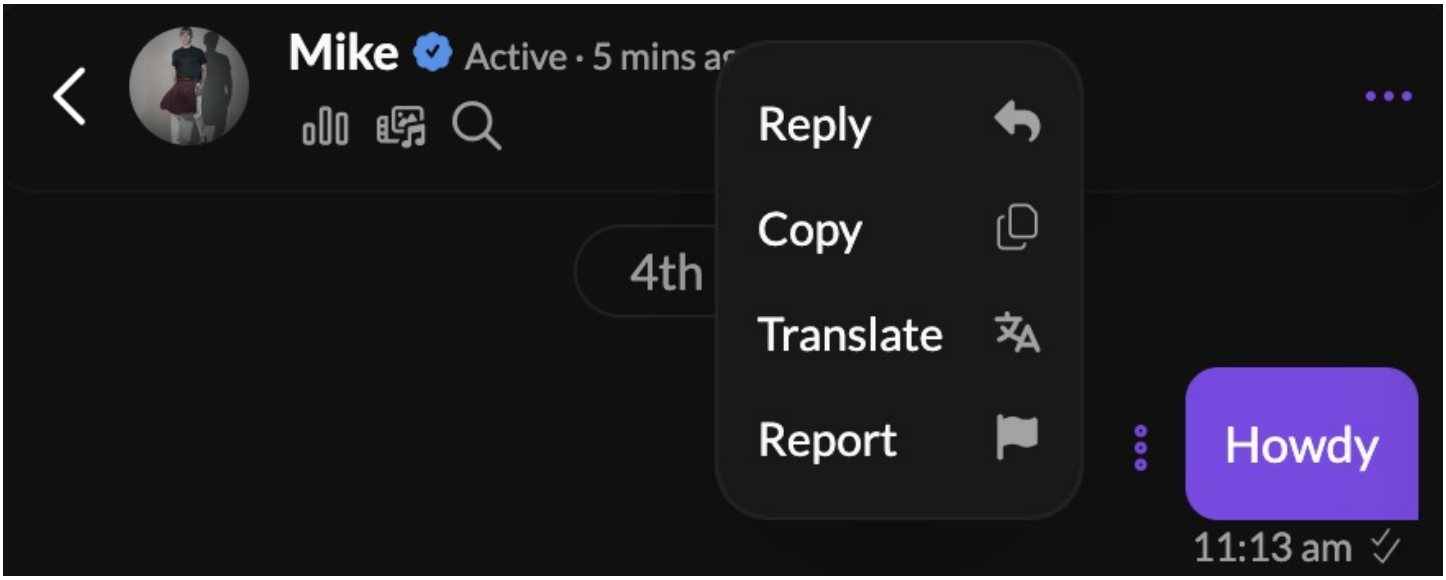

Reporting "Intimate images without my consent (NCII)" in Posts.

4. Click **Report Post** to submit.

Reporting a message

1. In a chat, find the three-dot menu next to the message you want to report.

Screenshot

2. Select **Report**.
3. Choose a reason and add any relevant details.
4. Submit your report.

Reporting by Email

Reports can also be submitted via email to support@fansyme.com. Be sure to include:

- **Links:** Direct URL(s) to the content or profile.
- **Description:** A clear explanation of the problem.
- **Reason:** Why it violates the law or our Terms of Service.
- **Evidence:** Any other evidence of the violation.

Our Review Process

1. **Review.** Our team reviews reports to assess whether the content violates our policies or applicable law.

2. **Resolution.** If a violation is confirmed, we take appropriate action, which may include content removal, account restrictions, or reporting to authorities where required.

Reporting Intimate Imagery Posted Without Your Consent

For content depicting you that was shared without your consent, including deepfakes or AI-generated material, please use our dedicated NCII reporting guide, which explains the process, what information we need, and how long it takes.

Important Notes

- **Reports are confidential:** the reported user will not know who submitted them.
- While we're not able to share ongoing investigation details, every report is reviewed by our moderation team.

Thank you for helping us keep FansyMe a safe and supportive community.
